BESCHREIBUNG

This Hall, is a beautiful and unusual space inside a co-working space. This industrial building, a former printing factory with it's mixed architecture styles from retro 50's design to modern 90's, provides you of an inspiring atmosphere like you've never seen before.

The entrance is situated inside a contemporary art Gallery with paintings from upcoming talents and established artists.

The hall is, as said before: a modern retro decorated room with an artistic character. An inspiring place with maximum possibilities.

The room is suitable for meetings, workshops, dance-events, exhibitions, lectures, weddings, inside festivals, screenings, theater shows, fine dining and almost everything you can think of.

The building is located in the inspiring harbour area of Rotterdam West, the so called M4H - Makers district or Innovation District.

The artistic character defines itself in the mix between vintage design and modern- industrial furniture. Combined with plants and artworks all around the room the hall is a very inspiring place to be or to work in.

As we are very pleased to welcome you in our inspiring space, we will do our very best to provide you of all the services needed and to fulfill your wishes. If there are any special requests you have or deviant times you would like to book, please feel free to ask any time.

For your information, in the weekend Thursday - Sunday we can stay open all throughout the night until 5 am next morning.

Besides our beautiful hall we also have an extra space available a white cube, a more industrial and raw space. This space is perfect to do brainstorm sessions, workshops, presentations, interventions, exhibitions or whatever fits your desires and program.

This space has a surface of 75 square meters with a 4 meter high industrial ceiling. and could fit 50 - 100 persons
